MR240

Ideal for use with backhoes and mini-excavators, **the Agatec MR240 offers the convenience of a machine-mounted display at an economical price.** It features LED indicators to show the position of cutting edge in relation to laser reference beam. Three indicators in coarse mode, up to five in fine mode. Equipped with magnet mount with extra strong rare earth magnets.

- **Accurate grade information for all visual machine control applications**
- **Extra strong rare earth magnets**
- **Rugged design, waterproof**

INCLUDES: Receiver, alkaline batteries

SPECIFICATIONS	Art. No. 775123	
Range	200 m	
Accuracy	Fine	6 mm
	Coarse	30 mm
Reception angle	240°	
Reception height	14 cm	
Power	3 x AA batteries, 1.5 V	
Battery power	130 hrs with 3 x AA alkaline	
IP protection	IP67: totally protected against dust and water	
Weight	2.2 kg	
Size	220 x 120 x 100 mm	
Warranty	2 years	

Productivity Booster

Affordable. Reliable. Smart.

MR360R

The Agatec MR360R offers accurate grade information for all visual machine control applications. Large 360° detection windows pick up any rotating laser, from any angle. Built-in vertical indicator monitors angle of the stick, signaling if it's plumb or under-or over-extended. Receiver has plumb LED indicator; remote display has direction arrows for plumbing up the dipper stick. Magnet mount allows quick setup and easy movement from machine to machine. Clamp mount also available.

- 360° detection windows for total coverage
- In-cabin remote display for best control on operations
- No cables required

Available with magnets or clamps
